EXPERIENCE

OBJECTIVE

In life, my main objective can be simplified in three words: **Yearn to Learn**. For me, the need to learn is the essential key to always improving yourself in this ever-changing world; learn new things, new hobbies, new environments, new people, etc.

SKILLS

Because of my approaching undergraduate degree in Computer Science and my overall interest an ability in design, I am able to masterfully plan and create UI/UX designs that not only meets visual standards, but also user-friendly and meticulously calculated. Other than that, I am also able to create designs for promotional, informational, or even social media post designs.

I am also proficient in using these applications for all my respective needs and purposes:

2 0 1 9 - 2 0 2 0

Head of Publication and Documentation - SMA Tarakanita G.S. Student Council

I had the responsibility of organizing and keeping track of design and/or documentation requests from other divisions and events.

2 0 2 2 - 2 0 2 3

Vice Chairman - Orang Muda Katolik Wilayah Medang

I had the responsibility of aiding the chairman in leading, organizing, guiding, and maintaining the relationships between each members. I'd like to highlight one of my achievement while I am in this position where I have successfully led a charity event titled "**OMBAK: OMK Bakti Sosial**" at one of the orphanage nearby.

2 0 2 2 - 2 0 2 3

Education Counselor - Binus University

As an part of the Marketing Team for Binus University, as Education Counselor I had the responsibility of sharing information about Binus in High Schools where the students are about to go to University. Attending events, doing presentations, looking for soon-to-be Students were part of the job description. I take pride in being one of the most active member of my team that is allocated in Northern Jakarta although located very far from my Home.

2 0 2 3

Freshmen Leader - Binus University

As a Freshmen Leader, I had the task of guiding Freshmen in their orientation and adaption process from High School to University. As Freshmen Leaders, we must guide the Freshmen from their very first steps in the Campus to their Inauguration a few months after.

2 0 2 3 - 2 0 2 4

Freshmen Partner - Binus University

Similar to being a Freshmen Leader, Freshmen Partners are tasked in aiding and helping Freshmen further in their adaptation process in Binus University. But, instead of being with them to Inauguration, Freshmen Partners must accompany Freshmen in their first year of Campus life. My achievement while being a Freshmen Partner is winning one of the competition for creating an Instagram Feeds content regarding Climate Change with my Freshmen peers, resulting in us winning in **first place** and winning some amounts of money for each of us.

EDUCATION

2 0 1 9 - 2 0 2 2

Natural Sciences - SMA Tarakanita G.S.

2 0 2 2 - c u r r e n t

Computer Science - Binus University

Achieved 14th Parallel Ranking

Current GPA **3.77**

VOLUNTEER AND LEADERSHIP

I have always tried and will yearn for leadership experiences throughout my education as can be seen in my experience. I also will always try to nominate myself to become a leader in a group project if the chance presents. For me, being a leader means getting on the same level as your other members instead of standing on a pedestal and only lead with my mouth. I personally believe in the more hands-on type of leading that is somewhat similar to the Agile Software Development Methodology.
